'Sustainable land use management for the conservation of the freshwater pearl mussel'

2019 Conference

Saturday 11th May 2019
9:15am to 5:30pm
Blackwater Tavern

This one-day conference presents the experiences and results of the KerryLIFE project and participating farmers in demonstrating practical conservation measures to restore the freshwater pearl mussel populations.

A morning session of short talks will be followed by visits to project sites.

The conference will include farmers, foresters, scientists and policy makers.

Please contact project team to confirm attendance on: 085 8772570 Richard or 085 8772571 Padraig
